BUILDING ON A THIRTY-YEAR EXPERIENCE IN THE TRUCK AND TRAILER SECTOR, DOMAR DESIGNS, PRODUCES, AND MERCHANDISES MUDGUARDS, ANTISPRAYS, AND ASSEMBLY ACCESSORIES, GUARANTEEING THE BEST RESULTS IN TERMS OF HIGH QUALITY AND COMPLIANCE WITH INTERNATIONAL STANDARDS.

IT

Forte di un'esperienza trentennale nel settore TRUCK e TRAILER, Domar progetta, produce e commercializza **parafanghi, paraspruzzi e complementi di montaggio** per il settore **truck e trailer**, garantendo i migliori risultati in termini di qualità e conformità agli standard internazionali.

DE

Mit 30 Jahren Erfahrung im Bereich TRUCK und TRAILER entwickelt, fertigt und vertreibt Domar Kotflügel, Spritzschutz und Montagezubehör für den LKW- und Anhängerbereich und garantiert beste Ergebnisse in Bezug auf Qualität und Einhaltung internationaler Standards.

FR

En comptant sur une expérience trentenaire dans le secteur TRUCK & TRAILER, Domar conçoit, produit et commercialise **ailes, bavettes et compléments de montage** pour le secteur **Truck & Trailer**, en assurant les meilleurs résultats en termes de qualité et conformité aux normes internationales.

ES

Fuerte de una experiencia de treinta años en el sector TRUCK y TRAILER, Domar proyecta, produce y comercializa **guardabarros, faldillas y complementos de montaje** para el sector **truck y trailer**, garantizando los mejores resultados en términos de calidad y conformidad a las normas internacionales.

A COMPANY ON THE MOVE.

PRODUCTS' QUALITY, TECHNOLOGICAL INNOVATION, COMPETITIVE PRICES, CUSTOMER FOCUS, CARE FOR THE ENVIRONMENT AND THE SAFETY CULTURE: IT IS THANKS TO THESE STRONG POINTS THAT DOMAR PRODUCTS TRAVEL ON THE ROADS OF 5 CONTINENTS AND MORE THAN 100 COUNTRIES.

THESE SUCCESSFUL OUTCOMES HAVEN'T STOP THE COMPANY'S DESIRE AND WILL TO GROW, AS THERE IS ALWAYS ONE GOAL: INNOVATION.

IT

UN'IMPRESA IN MOVIMENTO.

Qualità dei prodotti, innovazione tecnologica, prezzi competitivi, attenzione al cliente, rispetto per l'ambiente e cultura della sicurezza: è grazie a questi punti di forza se i prodotti Domar viaggiano sulle strade di 5 continenti e di oltre 100 Paesi. Risultati importanti che non hanno frenato le ambizioni e la voglia di crescere aziendale, perché il traguardo è sempre lo stesso: innovare.

DE

EINE FIRMA IN BEWEGUNG.

Produktqualität, technologische Innovation, wettbewerbsfähige Preise, Kundenpflege, Respekt für die Umwelt und eine Kultur der Sicherheit: Dank dieser Stärken reisen Domar-Produkte auf den Straßen von 5 Kontinenten und über 100 Ländern. Wichtige Ergebnisse, die die Ambitionen und den Wunsch, das Geschäft zu erweitern, nicht gebremst haben, denn das Ziel ist immer das Gleiche: Innovation.

FR

ENTREPRISE EN MARCHÉ.

Qualité des produits, innovation technologique, prix concurrentiels, attention portée sur le client, respect pour l'environnement et culture de la sécurité : c'est grâce à ces points forts que les produits Domar voyagent parmi 5 continents et plus de 100 Pays. Il s'agit des résultats importants qui n'ont pas freiné les ambitions et l'envie de grandir de l'entreprise. Car le but est toujours le même : innover.

ES

UNA EMPRESA EN DESARROLLO.

Calidad de productos, innovación tecnológica, precios competitivos, atención al cliente, respecto hacia el medio ambiente y cultura de la seguridad: gracias a estos puntos fuertes, los productos Domar viajan a través de 5 continentes y más de 100 Países. Son resultados relevantes que no han frenado las ambiciones y la gana empresarial de crecer, porque el objetivo es siempre lo mismo: innovar.

INNOVATION AND EFFICIENCY: IT'S A STANDARD FOR DOMAR

THE **FULLY AUTOMATED** PRODUCTION FACILITY IS ABLE TO WORK 24/7 IN ORDER TO DEVELOP **PLASTIC AND METAL PRODUCTS** WITH A **HIGH DEGREE OF CUSTOMIZATION**.

FOR PLASTIC PRODUCTS, THE MAIN PRODUCTION PHASES INCLUDE INJECTION MOLDING, THERMOFORMING, EXTRUSION AND CNC CUTTING. EACH STAGE INTERACTS WITH THE OTHER IN A LOGIC OF INTEGRATED AND CONNECTED CHAINS, IN A WAY TO ENSURE LEAN, SAFE AND EFFICIENT PROCESSES. METAL PRODUCTS ARE FORMED THROUGH MACHINE PRESSES, CUT WITH LASER TECHNOLOGY, WELDED AND THEN PAINTED IN AUTOMATED PAINTING BOOTHS. A CHAIN WHICH ENSURES STREAMLINED PROCESSES AND BEST-PERFORMING PRODUCTS.

IT

INNOVAZIONE ED EFFICIENZA: UN CLASSICO PER DOMAR.

L'impianto produttivo, **completamente automatizzato**, è in grado di operare 24 ore al giorno e realizzare **prodotti in plastica e metallo** con un **elevato grado di personalizzazione**.

Per i prodotti in plastica, le fasi principali del processo sono lo stampaggio a iniezione, la termoformatura, l'estrusione e il taglio CNC. Ogni fase dialoga con l'altra in una logica di filiera integrata e connessa, in modo da garantire processi snelli, sicuri ed efficienti.

Gli accessori in metallo sono stampati attraverso presse meccaniche, tagliati tramite tecnologia laser, saldati e, infine, verniciati in forni automatizzati. Una catena che assicura processi ottimizzati e prodotti performanti.

DE

INNOVATION UND EFFIZIENZ: KLASSIKER FÜR DOMAR.

Die vollautomatische Produktionsanlage kann 24 Stunden am Tag arbeiten und **kundengebundene Produkte aus Kunststoff und Metall** herstellen.

Bei Kunststoffprodukten sind die Hauptphasen des Produktionsverfahren Spritzgießen, Thermoformen, Extrusion und CNC-Schneiden. Jede Phase steht in einer integrierten und vernetzten Supply-Chain-Logik mit der anderen in Verbindung, um schlanke, sichere und effiziente Verfahren zu gewährleisten.

Die Metallartikel werden mit mechanischen Pressen bedruckt, per Laser geschnitten, geschweißt und in automatisierten Öfen lackiert. Eine Kette, die für optimierte Verfahren und Produkte sorgt.

FR

INNOVATION ET EFFICACITÉ: UN CLASSIQUE POUR DOMAR.

Les unités de production installées, **complètement automatisées**, elles sont en mesure de travailler 24 heures par jour et de réaliser des **produits en plastique et métal** avec un **dégré élevé de personnalisation**.

Pour les produits en plastique, les phases principales du processus sont le moulage par injection, le thermoformage, l'extrusion et le découpage CNC. Chaque phase se lie à l'autre dans une logique de filière intégrée et connexe, afin d'assurer des processus simplifiés, sûrs et efficaces. Les compléments en métal sont moulés par des presses mécaniques, coupés selon des technologies laser, soudés et enfin peints dans des fours automatisés. Une chaîne qui assure des processus optimisés et des produits performants.

ES

INNOVACIÓN Y EFICIENCIA: UN CLÁSICO PARA DOMAR.

Las instalaciones de producción, **enteramente automatizadas**, pueden actuar 24 horas al día y realizar los **productos en plástico y metal** con un **nivel elevado de personalización**.

Para los productos en plástico, las fases principales del proceso son el moldeo por inyección, el termoformado, la extrusión y el corte CNC. Cada fase se conecta a la otra en una lógica de hilera integrada y asociada, para garantizar una producción ajustada, segura y eficiente.

Los componentes en metal son moldeados a través de prensas mecánicas, cortados por medio de las tecnologías láser, soldados y al final pintados en hornos automatizados. Una cadena que garantiza unos procesos optimizados y unos productos funcionales.
